Astonishing Success.

It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing consumption, severe coughs, croup, asthma, pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case and we consider it the duty of all druggists to recommend it to the poor, dying consumptive, at least to try one little, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all druggists and dealers in the United States and Canada.

A Gift for All.

In order to give all a chance to test it, and thus be convinced of its wonderful restorative powers, Dr. King's New Discovery for consumption, coughs and colds will be for a limited time, given away. This offer is not only liberal, but shows unbound faith in the merits of this great remedy. All who suffer from coughs, colds, consumption, asthma, bronchitis, or any affection of the throat and lungs are especially requested to call at S. J. Hodgkinson & Co.'s drug store and get a trial bottle free; large bottles \$1.

Acker's Blood Elixir is the only Blood Remedy guaranteed. It is a positive cure for Ulcers, Eruptions, or Syphilitic Poisoning. It purifies the whole system, and banishes all Rheumatic and Neuralgic pains. We guarantee it.

W. PINNIGER, Druggist.

An Absolute Cure.

The ORIGINAL ABETINE OINTMENT is only put up in large two-ounce tin boxes, and is an absolute cure for old sores, burns, wounds, chapped hands, and skin eruptions. Will prevent all kinds of piles. Also the ORIGINAL ABETINE OINTMENT. Sold by Osburn & Shoemaker at 25 cents per box—by mail 30 cents.

Bucklin's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chillblains, corns and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by S. J. Hodgkinson & Co.

General Lee's Generosity.

Here's an incident of Gen. Robert E. Lee that has never been published. Colonel Chapman, the special internal revenue officer, was Colonel of Mosby's regiment. Frequently Mosby was off making private scouting, accompanied by only a few trusty men. In such cases he left Colonel Chapman in command. Early in January, in 1865, the Colonel went to Petersburg to see General Lee about moving a part of Mosby's command for the remainder of the winter down near Kinsale, on the Potomac River. While the Colonel was talking to General Lee they were interrupted by the arrival of a special courier. The day was very cold. There had been rain for several days. This day the rain had fallen in torrents. The way was drawing to a close and rations and clothing were very scarce. The courier was wretchedly clad. He had no overcoat. His suit was very much worn and was soaking wet for he had ridden many miles that day in the drenching rain. General Lee drew a chair to the small wood fire and bade the man take a seat. When he had concluded his errand and was thoroughly warmed he arose to go. Gen. Lee glanced at him almost furtively, as if he felt that the soldier was ashamed to have his poor attire observed.

"Are you returning at once to your General's?" inquired General Lee.

"Yes, sir," was the response, "if my horse has finished feeding."

"It is still raining very hard," said General Lee; "have you no rubber coat?"

"Oh, that don't matter, General," was the evasive but brave answer.

"Then," says Colonel Chapman, "General Lee remained silent a moment, walked to the wall where his rubber coat hung, took it down and gave it to the soldier, who protested in vain against General Lee's depriving himself. "I'll tell you," continued Colonel Chapman, "there were many generals in the army who would have risked their lives for their men, but Lee is the only one I saw part with a gum coat on a rainy day in dead winter, and that to a private who was not even immediately connected with Lee's command." —[Macon Telegraph.]

Merit Will Tell.

Was never better demonstrated than when "Fryer's Abietine Remedies" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Pinniger is agent for these celebrated "Abietine Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of D. F. Fryer is on each, as none are genuine without it.

Happiness and Health.
Are important problems, the former depending greatly on the latter. Everyone is familiar with the healthy properties of fruit, and no one can afford to be sick and miserable while the pleasant California concentrated liquid fruit remedy, Syrup of Figs, may be had of our enterprising druggist, Wm. Home Testimony.

Gilmore's Aromatic Wine has been produced at Pavilion, Genesee Co., N. Y., for fifteen years past. Batavia is the largest town in the county, and the demand there has steadily increased every year. It was first endorsed by the Genesee Co. Medical Society, and a number of leading physicians used it in their practice. A large demand at once sprung up for it and the druggists were compelled to keep it in stock. The sales in Batavia are now sixteen hundred bottles a year at retail, and the goods are ordered by the gross. No other remedy has half that sale in the town. It takes a medicine of first-class merit to achieve such a reputation at home. Agent for Reno, W. Pinniger.

Rebells Her Youth.

Mrs. Phoebe Chesley, Peterson, Clay county, Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all my own household work. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain." Try a bottle, only 50¢ at S. J. Hodgkinson & Co.'s drug store.

Irritation of the throat and all lung troubles are quickly relieved and permanently cured by Fryer's Abietine Cough Balsam. (It contains no opium.) Price 75 cents. Sold by W. Pinniger, Reno, Nevada. All genuine Abietine preparations bear the fac-simile signature of D. F. Fryer.

The disposition to prejudge an individual who has been arraigned for crime is radically wrong and either damages the case of an innocent party or precludes the possibility of a guilty one receiving a just punishment. We have tribunals that are supposed to be unbiased, and which are governed exclusively by the evidence, *pro and con*, that is produced before them, and through which the guilt or innocence of a party on trial is reached. Even with all the precaution that is taken in our courts of justice, which invariably give a supposed criminal the benefit of every doubt, grave mistakes have been made and innocent parties compelled to suffer for crimes committed. No newspaper that has any respect for our courts of justice will voluntarily assume the responsibility of prejudging any case.

When the announcement was made that charges had been preferred against Dr. Bishop and that an investigation would follow, the Carson papers asked that the public withhold judgment until the charges were carefully inquired into by an authorized tribunal. They even went so far in their apparent desire to keep down public feeling as to censure a Reno paper for publishing the charges that had been made. They saw proper to disregard the fact that the Asylum was public property, supported and run by the public, and those in charge of it servants of the people. Only a few days ago these same papers were loud in their denunciation of the San Francisco press for suppressing the disclosures in the famous Kissane case. They claimed that the charges against Kissane were public property, and as such, ought to be published. Yet Kissane was not, nor had he been, a public servant. If the charges preferred against a criminal who only violates a law are public property, to whom should the charges be submitted that are preferred against a public man who is supposed to have violated a public trust? Are they to be treated as something of a private nature? The public have a perfect right to know these things and they can also be given to the public by a newspaper, and without prejudging the individual against whom the charges are preferred. Now the papers at the Capital, directly in the face of the advice given by them to the public regarding hasty prejudgment, are rendering their verdict in this case, and that, too, before the investigation has hardly commenced. Have they heard any evidence in the case that would sustain the verdict they have decided upon? The GAZETTE is publishing the proceedings of the investigation in a fair, impartial manner. We have arrived at no conclusion regarding the guilt or innocence of Dr. Bishop. Those who are to judge the case could not, either in justice to the Doctor or the people, at the present time tell what the outcome of the investigation will be. It may be, however, that the editors of the Carson journals are possessed of a much higher order of perspicacity than is allotted to the ordinary run of human beings. Whether this is so or not, it would look much better for those papers if they were to withhold their judgment until the evidence in the case is heard—particularly after admonishing others to refrain from doing that which they themselves are guilty of.

The strained relations between France and Germany are so delicate that even a trivial circumstance would, in all likelihood, precipitate a bloody war between them. They both have a "chip on their shoulders," and both seem to be waiting for the other to knock it off. War correspondents are ready, with pencils sharpened at both ends, for the fray to commence.

MURDERERS TO BE HANGED.

An Editor Elected to the House of Commons.

[PRESS DISPATCHES TO THE GAZETTE]

Death of Justice Woods.

WASHINGTON, May 16.

The Supreme Court assembled at noon. The Chief Justice announced the death of Justice Woods, whose chair was draped in black, and said that as a mark of respect to the memory of the deceased the Court would adjourn until Monday next, when motions would be heard and a later day fixed for the Court's final adjournment. Most of the Justices will go to Ohio to attend Justice Wood's funeral. A meeting of the bar of the Supreme Court was held this morning and a committee appointed to draw up appropriate resolutions in reference to the death of the late Justice Woods.

Murderers to be Hanged.

SANTA FE, May 16.

To-day General Ross forwarded the death warrant of P. J. O'Donnell, who will be executed at Silver City next Friday, the same day as that on which Jasper Thompson will be hung at Socorro. This will finish the quartette of murderers about which there has been so much public discussion. There are three more men in jail, charged with murder, one in Bernallillo and one in Sierra county, who will very likely hang if the public version of their crimes proves to be correct.

A \$35,000 Blaze.

DENVER, Colo., May 16.

The loss by the burning of Kersten Peters, wholesale paper store early this morning was \$35,000. It was insured for nearly that amount. The cause of the fire is unknown.

FOREIGN DISPATCHES

WESTERN DISPATCHES

A Destructive Fire at Fresno.

FRESNO, Cal., May 16.

A fire at 11 o'clock last night destroyed about \$50,000 worth of property in Chinatown, this city, on the south side of Tulare street, last night. The fire broke out in a dance house owned by Mollie Livingston, and was caused by the upsetting of a lamp in the room of one of the women. A high wind was blowing, and no water supply being at hand, it spread to adjoining buildings, and, in all, about 30 houses and their contents were burned, including several Chinese stores and laundries. The insurance is very light. Sam Lee's brick store was the only building in the block that was saved.

Fourth of July Meeting.

Pursuant to call a meeting of the citizens of Reno was held at C. W. Booton's auction rooms on Saturday evening to appoint a committee and take other steps necessary for the proper observance of the coming 4th of July. The meeting was enthusiastic and the importance of a successful, old-fashioned celebration on the anniversary of American independence freely discussed. Those who have interested themselves in this matter are energetic men, and are determined that the coming celebration shall far outshine anything of the kind that has heretofore taken place in Reno. Our citizens should all take a deep interest in this matter and render all the aid in their power, both financially and otherwise, and assist the committees in their arduous duties. If we are to celebrate at all let us have a rousing good one. The following named gentlemen compose the committee on general management: W. B. Chamberlain, Chairman; J. O. Twiss, Frank Bell, C. W. Booton, Sol Levy, A. Benson, H. P. Kraus, C. S. Preble and A. A. Evans. S. O. Wells, C. C. Powning, H. Ryland, T. K. Hymer, and C. W. Booton, Chairman, compose the Committee on Finance. The committees will meet on Tuesday evening to make further arrangements.

Janish, the Countess Arco.

Janish, who for the past five years has been the idol of Paris and Vienna, will appear at the Nevada Theater this evening. She is said to be a great artist, and is pronounced by leading critics to be superior to Bernhardt, Modjeska and Rhea. Speaking of her appearance in "Violets," the Baltimore *Herald* of November 21, 1886, says:

"Violets" is entirely new to Baltimore theater-goers. It is something of the "Camille" order, and it affords her an admirable opportunity of displaying her phenomenal powers as an emotional actress. In "Violets" Mme. Janish evinces a tenderness, a depth of feeling and a delicate appreciation of all the finer points in the dialogue that cannot be described, because it is simply incomparable. Her art has that rare quality in it that enables her still to please her audience, while she touches its tenderest sympathies, arousing that which *Julies* so aptly voices in the words "sweet sorrow." Mme. Janish is surrounded by an excellent company. Foremost are John C. Freund, Myron Leffingwell, Miss Genie Laughton, Miss Nellie Donald and others.

On an Extended Tour.

Dr. J. P. Porter and wife will leave to-morrow for an extended tour, and expect to be absent from Reno for probably two years. They will go with team, via the Yosemit Valley, to San Francisco, from which city they will go over the Southern Pacific road to the East. Washington, Philadelphia, New York and other cities of interest will be visited, after which they will leave for Europe, where they will travel for several months and then go to Buenos Ayres, South America. The best wishes of a host of friends in Reno will accompany the doctor and his wife during their travels.

Northwestern Masonic Aid Association of Chicago.

Organized in 1874, has now 40,000 members; has paid to beneficiaries \$3,250,000. The benefits of life insurance furnished at actual cost; employs and pays its own medical examiners. BREVITIES.

Local and General News.

Truckee is to have a rousing celebration of the Fourth of July—perhaps.

Virginia City is full of idle men, many of whom are in distressing circumstances.

Mrs. W. D. C. Gibson, of the Pyramid reservation, is visiting her sister-in-law, Mrs. Hy Doane, at Carson.

Alf Doten has nearly completed his labor on the pamphlet to be published in regard to the Pacific Coast pioneers.

The trench for the sewer at the State University is nearly completed and the pipe will be laid immediately.

Those who desire to witness a first-class performance must not fail to see Janish to-night. Herrich and extensive wardrobe, the finest upon the American stage, is alone worth the price of admission.

Among the early birds in the tourist line at Lake Tahoe this season are a couple of English gentlemen who are stopping at the Tahoe House and enjoying themselves fishing. They intended to stay but a few days, but now think of spending several weeks.

Returned.

Lewis Zimmer, the old-time musical favorite and leader of the Virginia orchestra, has returned and will lead the orchestra at the Nevada Theater this evening. Mr. Zimmer is well and favorably known here and the music to-night will be a perfect treat.

Please Note.

Jacob Zech is in town and is ready to put pianos in good tune. He can be found by leaving word at B. Herz Jewelry store.

ASYLUM INVESTIGATION.

THE COMMISSIONERS CONTINUE THEIR WORK.

More Witnesses for the Prosecution on the Stand—Testimony for the Defense Being Heard—Another Large Attendance of Spectators at the Asylum Today.

The investigation into the charges preferred against Dr. Bishop as Superintendent of the Insane Asylum was resumed this morning at half-past 9 o'clock, the full Board of Commissioners being present. The number of spectators present was large, as usual.

Attorney Lindsay stated to the Board that one of the witnesses for the prosecution had arrived from California Saturday evening and asked permission to continue such evidence, which was granted.

Mrs. Julia Blaisdell, being duly sworn, said: I reside in Washoe county; I conduct a large ranch; know of four or five patients from the Asylum working on Mrs. Thomas' ranch during haying season; Mrs. Thomas' ranch is close to mine; there were also several of the crazy men working on a ranch in Spanish Springs Valley; the lady of the ranch was afraid of them; she asked me once to remain with her until her husband returned from town.

John Cunningham, being duly sworn, said: Am employed in this institution as an attendant; have worked here as such a little over three years; knew a French patient named Dave; after he was discharged in November, 1884, he went to Mrs. Alt's to work; he afterwards came here to get shaved and get his washing; he generally came on Sundays; a week or two after Dave was discharged Dr. Bishop told me not to tell Dave that he was discharged; I have seen the battery applied quite often to patients while in the yard; I saw the battery applied to a patient named Billy Bowen; he was stout and compactly built; he walked about at times so much that he made a path in the yard; the battery was applied to him all over; saw one of the poles of the battery applied once inside of his pantaloons; helped to do it; he would squirm and contract himself; he appeared to be in great pain; it required great assistance and strength to hold him at such times; never heard Dr. Bishop say why the battery was applied to him; have seen the battery applied to 10 or 12 patients at a time; presume some of the patients are in abject terror of the battery; don't remember of having heard the patients threatened with the battery; think I have seen the battery applied inside of the pantaloons of other patients; I remember of one case—Joseph McLaughlin; I applied the battery in such instances by order of Dr. Bishop.

Cross examination—Have been employed at the Asylum as an attendant for over three years; don't know that Billy Bowen was addicted to masturbation; don't know why Dr. Bishop applied the battery to patients; I was never told why; understood it was for curative purposes; I cannot say that the battery resulted in any benefit, especially in the case of Billy Bowen.

Redirect—During cold weather I have heard it talked of among the attendants that steam was not kept up in the building; know of water-pipes in the building bursting during cold weather; I heard of the battery applied to one Sands; he died some time afterwards; don't know of any patients in my ward that suffered from cold; always tried to look after my patients; never complained to Dr. Bishop of their suffering from cold.

Scott Lake, being duly sworn, said: I reside in Reno; now work with a surveying party on the Nevada and California railroad; arrived home Saturday evening; was employed as an attendant in the Asylum for two years—from 1883 to 1885; I quit of my own accord; had other business to look after; was in the sheep business; I saw the battery used frequently on patients the last year of my employment at the Asylum; remember a patient named John Flick; he was in the ward I was assistant attendant of; he once kicked in the door at the front end of the ward; he was a large, strong man; he did not, as a rule, talk much; some five or ten minutes after he kicked in the door the battery was applied to him; the poles were placed in his hands; he took them without much resistance; have assisted Dr. Bishop in administering the battery and have at such times been accidentally shocked myself; when it was turned on fully it was a powerful battery; knew of a colored woman, a patient, named Sophia in the Asylum; saw the battery applied to her; heard Mrs. Quinn, an attendant, threaten Sophia with the battery if she did not behave herself; Sophia feared the battery; she was noisy and boisterous; can't say why the battery was administered to her; knew Sands, a patient; saw the battery applied to him; he died before I left the Asylum; saw the battery applied to Billy Bowen; guessed he got the full force of the battery; have seen the battery applied to his body inside of his pantaloons; saw it frequently administered thus; three or four men would hold Bowen at such times; I think the zinc poles of the battery were sometimes put into water before

they were applied to patients; sometimes I would turn the crank and sometimes Dr. Bishop; the Doctor would superintend the operation; have no recollection of hearing the Doctor say why the battery was applied inside of the pantaloons of patients; the battery was used on patients in the yard; Sands had it administered to him once inside of his pantaloons; knew of Mike Lane, a patient, complaining of the battery being put on another inmate; the doctor told him to shut up or he would give him a dose; Campbell and I held Lane while the doctor gave him (Lane) the battery; it was all we could do to hold him, and he hollered; have seen Sophia and a Mrs. Glasson get the battery; remember a patient named George after he had been struck on the head with a pot; he died afterwards; four or five days before he died he had on a sort of an iron machine—a sort of a breast-plate; don't know of supplies going from the Asylum to Dr. Bishop's ranch; I had a key to the store-room; the doctor never accounted to me of any stores that he may have taken.

Cross examination—While I was an attendant I tried to discharge my duties faithfully; other attendants did the same; Dr. Bishop treated the patients considerably, except in the use of the battery; in applying the battery I did it in obedience to the doctor's orders; I understood the battery to be used for the benefit of the patients; understood the battery when applied to Sophia to be for the purpose of keeping her quiet; do not wish to imply that Sands died from the effect of the battery; do not know whether Sands or Bowen were addicted to masturbation or not; do not know whether Mrs. Glasson received the battery as punishment; it was one of the patients who struck George; don't know how often the doctor went to see him after he received the blow; George was not in my ward; the doctor visited my ward, as a rule, without an attendant.

Redirect—Don't know whether Dr. Bishop attended Ward C without an attendant or not; I refused once to let my patients go out to work because they had not gotten sufficient food; I told Patrick Bracken not to work the patients too hard because of their not getting enough proper food; I remember of the letter given to Mrs. Sessions by a patient; don't remember what Dr. Bishop said when he got the letter; my wards generally got for breakfast—three or four times a week—bread, butter, coffee and mush; sometimes they got fruit sauce instead of mush; there was always plenty of bread; at noon for dinner they got—say five days in the week—beef stew, and the other two days they got probably a roast; the evening meals were similar to the breakfasts, except there was tea instead of coffee and sauce instead of mush.

General Clarke asked to read to the witness from a book the bill of fare in a London Insane Asylum. Attorney Lindsay objected, Mr. Lake not being an expert. Governor Stevenson to witness—Do you know the usual food of patients in asylums?

Witness—I do not.

General Clarke withdrew the book.

A. B. Case, being duly sworn, said: Was employed in the Asylum four years and eight months as an attendant; left on the 1st day of last March; I quit of my own accord; I saw the battery applied to Carpenter; it was administered to him within a few minutes after he was brought here, and before he was taken to a ward; I assisted in applying the battery; he struggled considerably; he would not talk; I have seen the battery applied to other patients in the yard; have seen it applied inside of the pantaloons of patients; it was applied to the head and ears of Billy Bowen; he was a hard fellow to hold; Dr. Bishop generally turned the crank of the battery; have seen the battery applied to the inside of the pantaloons of two other patients; they were Frank Worm and one named Alonzo.

Cross examination—Carpenter, when I saw him just after he had arrived at the Asylum, was stupid, and the doctor said something about going to give him some electricity to brighten him up; he talked some afterwards; it revived him some.

Here the prosecution closed its case.

Attorney W. W. Bishop, for the defense, called Wm. Madden to the witness stand. He testified as follows: Was an attendant at the Asylum from December, 1882, until January, 1884, and then I worked here for another period; I quit of my own accord; know of a patient named Mrs. Johnson; I assisted in administering the battery to her; I helped to hold the patient; she was standing up; do not recollect of her hollering and screaming; don't know why the battery was applied to her; never heard the battery was applied to her to make her work; I do not consider her a violent patient; knew Mrs. King; do not think the battery was applied to her on the same occasion; I believe it was applied to her, but never heard whether it was for curative purposes or as punishment; have taken the full force of the battery myself; it was disagreeable and drew me up; it has that effect on everyone, sane or insane, that I have seen it used on; I never occurred to me that the battery was used on patients as a means of punishment; I saw the battery applied to Billy Bowen; don't know why it was applied to him; I think it improved him; knew the patient Sanborn; he was forced to work one day; he was

thrown down and choked; don't know whether the choking was done by Dr. Bishop's orders or not; being at a top story window of the Asylum at the time the choking was done I could not say that Sanborn was hurt much; it was believed that the Doctor would discharge any employee of the Asylum who mistreated patients; when I wanted a patient to go to work and he refused I never forced him; Dr. Bishop generally went through the wards every day; if he didn't he would inquire if his services were wanted; sometimes he would visit the wards alone, and sometimes he was accompanied by some one; Fred Livingstone, a patient, was bitten on the legs by rats; he died two days afterwards; Dr. Bishop was in California at the time; the only way the rats could get into the building was either through the transom or where the window was pulled down from the top; never reported the matter to Dr. Bishop; the body, I think, was in the deadhouse when the Doctor came home; I did not report the matter to the Doctor through fear that I would be discharged; in my best judgment rats ate Livingstone's leg; when my patients worked in the fields they got a lunch generally during the forenoon; meat, bread, coffee and onions often constituted the lunch; the patients, when in the fields, worked about six hours a day; their working in the fields was voluntary; I knew Dan; he was a quiet, mild patient; the patients were sufficiently clothed; I know of no cases where patients suffered from cold through lack of heat in my ward, or when they were insufficiently clothed; there were days when my ward was cold, and all the heat turned on; patients would sometimes get up at night and walk about; I would generally let them alone, and they would, sooner or later, go to bed again; the doctor never showed fear when going through the wards; if patients complained of being hungry at any time they got something to eat; never heard the doctor speak respectfully to any of the patients; I understood that Sanborn was choked in order to make him work; I was not close enough to him at the time to hear what he said when downed; Sanborn was a strong man and resisted when they downed and choked him.

Cross examination—I left the Asylum on the 5th of last January; have since resided in Virginia City; after the battery was administered to Mrs. Johnson, the doctor asked her something like, "Will you do that now and behave yourself?" I inferred he meant to make her go to work; I have said that Dr. Bishop was a friend of mine and that he had befriended me, and I would not say anything to hurt him; my sister-in-law is now employed at the Asylum; her child is with her; Dr. Dawson never asked me to color or mistreat any knowledge I have of Asylum matters.

Redirect—I talked of this matter to Dr. Dawson; he came to where I was in Virginia City, and asked me certain questions, and I told him I would not make a statement of my knowledge of the Asylum.

It being a quarter past 12 o'clock a recess was taken until half past 1 o'clock.

PERSONAL.

C. C. Powning returned from the Bay this morning.

Mrs. G. W. Mapes went below Saturday night for a few weeks. Scott Lake arrived in town yesterday from the north. C. L. McGlashan, of the Truckee Republican, is in Reno to-day. State Superintendent of Public Instruction Dovey was among the arrivals from Carson last night. Dr. Webber is sojourning among his Reno friends. Notwithstanding the late injuries he received, the Doctor is looking well.

Sara Bernhardt and party passed through Reno on Saturday night's overland for San Francisco. She was quite an attraction while at the surveyor General Irish left yesterday morning for Fort Hallieck in order to give instructions to the party that has the contract for surveying the reservation there.

Professor Nussbaum, of the University at Bonn, Germany, and his wife, were passengers on last night's overland train for San Francisco. Mrs. Nussbaum is a daughter of Adolph Sutro, of tunnel fame.

Bishop and Mrs. Whitaker are expected to arrive in Reno from the East on or about the 15th of next month. It is believed that Miss Louise Sissa, formerly a teacher in the Bishop's School for Girls, will accompany them.

Mrs. Gertrude Hiscock, nee Miss Gertrude Hatch, formerly of Reno, now of Syracuse, New York, passed through Reno Saturday night en route for San Francisco, where she will spend the summer with her father and mother, General and Mrs. A. J. Hatch.

Off for Home.

General Charles Forman departed for his home in Los Angeles on Saturday night, where he will reside permanently. Mr. Forman has long been identified with the mining interests of Nevada, and his familiar face will be missed on the Comstock. By his departure Los Angeles receives a go-ahead man and a reliable and desirable citizen.
